

# **Project Report: Graphic Design Portfolio and Client Management Website**

**Project Title:** Graphic Design Portfolio Website with Client Job Posting and Review Features

**Group Members:**

- Ali Naeem (20K-1751)
- 

## **1. Introduction**

This report details the development of a web-based system designed to streamline the portfolio display and client interaction processes for graphic designers. The system aims to provide an intuitive platform where clients can view portfolios, post job requests, leave reviews, and communicate effectively with designers.

---

## **2. Project Objectives**

- Create an accessible and visually appealing portfolio platform for graphic designers.
  - Enable clients to post job requests with specific requirements.
  - Establish a reliable feedback and rating system to enhance service quality.
  - Simplify project management and communication between designers and clients.
-

### 3. Core Features

- 1. **Portfolio Display:**
    - Categorized by project types (e.g., branding, web design).
  - 2. **Job Posting System:**
    - Allows clients to submit job requests with details and deadlines.
  - 3. **Review and Rating System:**
    - Clients can provide feedback and rate services post-project completion.
  - 4. **Contact Information Page:**
    - Displays contact methods such as email, phone, and social media links.
  - 5. **Client Messaging System:**
    - Direct communication channel between designer and clients.
  - 6. **Client Profile Management:**
    - Clients manage profiles, contact details, and job postings.
  - 7. **Admin Panel:**
    - Provides control over portfolio updates, client interactions, reviews, and jobs.
  - 8. **Job Status Tracker:**
    - Monitors job progression (e.g., pending, in progress, completed).
  - 9. **Job Categories:**
    - Clients can choose from categories like logo design, website design, etc.
- 

### 4. Development Timeline

Task	Start Date	End Date	Duration
Project Planning & Proposal	Sep 9, 2024	Oct 16, 2024	1 week
Wireframing & UI Design	Sep 17, 2024	Oct 31, 2024	2 weeks
Frontend Development	Oct 1, 2024	Nov 21, 2024	3 weeks
Job Posting & Review Features	Oct 29, 2024	Jan 12, 2025	2 weeks
Testing & Debugging	Nov 13, 2024	Jan 27, 2025	2 weeks
Final Deployment	Nov 28, 2024	Feb 4, 2025	1 week

---

## 5. Expected Outcomes

- A professional, user-friendly platform showcasing graphic design work.
  - Enhanced client-designer interactions through seamless communication and job management tools.
  - Increased client satisfaction via job tracking, feedback, and reminders.
- 

## 6. Conclusion

The successful implementation of this project will create a robust platform for designers to manage portfolios and client relationships efficiently, fostering growth and enhancing client satisfaction. The well-structured timeline and comprehensive feature set ensure timely delivery and high-quality output.
